

Ferragon Corp. Named Toll Processor of the Year 2021:

(Cleveland, Ohio) Ferragon Corp announces it has been chosen as Toll Processor Of The Year in the 2021 AMM Awards for Steel Excellence. The accolade includes Ferragon and its eight divisions: Ferrous Metal Processing, HyCAL Corp., Ferrolux, Autolum, FerrouSouth, Ferrous85, Ferrous Metal Transfer and FMP Met Lab.

Ferragon Corporation had its genesis in 1983 with the purchase of a batch pickling operation, a slitting line and a cut-to-length line, starting at Ferrous Metal Processing in Cleveland, OH with 8 employees.

Ferragon Corporation is one of the premier flat rolled toll processors in the USA. Offering pickling, slitting, CTL, stretcher leveling, UM leveling, cold rolling, batch annealing, continuous annealing and trucking through our eight divisions, Ferragon supports manufacturing supply chains in industries such as automotive and transportation, energy, appliance, construction, agriculture, mining, metal building, and general fabrication across the Midwest and Southern USA.

"We are thrilled and humbled to be selected as Toll Processor of the Year," said Eduardo Gonzalez, president. "For years we've felt that nobody does toll processing better--we offer customers a comprehensive package of metal processing services that helps them eliminate waste and reduce costs--so its great to have that formally recognized through this award."

The divisions of Ferragon are leaders in the geographic markets they serve, and Ferragon Corp. is the only steel processing company that can leverage the capabilities of our divisions to convert hot rolled coils all the way to fully processed AHSS/UHSS steel coils delivered to its customers.

About Ferragon Corp.

Ferragon Corporation is one of North America's leading metals services providers, providing support to supply chains in industries such as automotive and transportation, energy, appliance, construction, agriculture, mining and general fabrication. The divisions of Ferragon are leaders in the geographic markets they serve, providing value added processing of hot rolled and cold rolled steel as well as aluminum sheet products. www.ferragon.com
